

CHANGES TO EKG TREADMILL/ STRESS TEST RESULTS DISPLAY

11.21.22

Summary

Currently the note type that EKG Treadmill/Stress Test results post to is set to display when the note is 'In-Progress', which means the final interpretation has not been confirmed/made available. This could lead to a patient care decision being made on preliminary results only. Do to this possibility, we are **removing the display of 'In Progress' results** and **only making 'Auth (Verified)' available** in Clinical Notes or Documentation.

Key Points

Only 'Auth (Verified)' results will be available Clinical Notes or Documentation. This means that only finalized results will display.

Process of EKG Treadmill Stress Test Results:

Exams will still be forwarded to cardiologist for final interpretation and sign-off, but only the originating end-user and the user it was forwarded to will be able to view it until it is in a result of Auth(Verified).

FAQ's

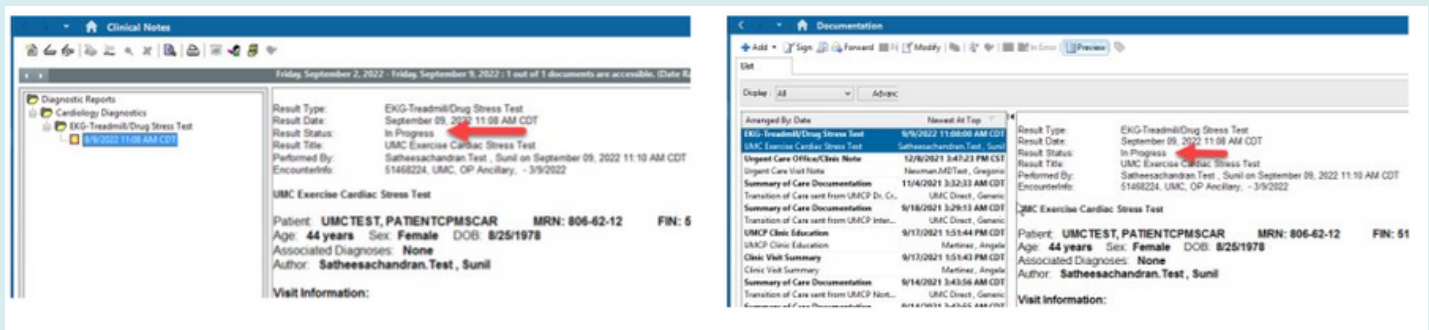

Turn Around Time for Auth(Verified) Results?

Always less than 24 hours with most turn around times being 2-3 hours.

Will I still receive a call for critical results?

Yes, providers will still receive a phone call for critical results.

Previous Display 'In Progress'

Only Display as of 11.21 'Auth (Verified)'
